PRESS RELEASE

Albany, New York —United States Attorney Richard S. Hartunian and Patrick Coultry, Resident Agent in Charge of the U.S. Immigration and Customs Enforcement (ICE) Office of Investigations, Albany, Department of Homeland Security, announced that STANLEY NADORASKI, age 41, of Albany, New York, was sentenced by the Honorable Norman A. Mordue in United States District Court in Albany on his guilty plea to count one of an Information charging him with the possession of child pornography. NADORASKI was sentenced to thirty (30) months of imprisonment and supervised release for a term of ten years. He was also ordered to: (1) have no unsupervised contact with minors; and (2) register with the New York State Sex Offender Registry Program. The Court also ordered that a computer be forfeited to the United States.

NADORASKI pled guilty on October 27, 2009. In connection with his plea, NADORASKI admitted the following in a written plea agreement and during his plea proceeding:

Between about April, 2008 and April 22, 2009, NADORASKI, while in his residence, used his Dell XPS 410 desktop computer which contained a Western Digital hard drive, serial no. WD-WCANK9742771, to access various websites featuring child pornography. Three websites were visited by NADORASKI. These websites were known child pornography websites. While on these websites, NADORASKI either paid for access, or accessed for free, child pornography still images and videos which he then downloaded and saved in various electronic sub-folders on the aforementioned computer.

On or about April 22, 2009, a federal search warrant was executed at the defendant's residence and three computers were seized and searched. Forensic examinations of the seized computers were subsequently conducted and the

aforementioned Dell XPS 410 desktop computer was identified as containing child pornography. Approximately fifteen (15) still images and twelve (12) videos depicting minors engaged in sexually explicit conduct, as those terms and phrases are defined in Title 18, United States Code, Section 2256(2), were recovered from said computer. Said images depict individuals under the age of 18 engaged in, among other things oral sex, vaginal sex, masturbation, and the lascivious exhibition of the genitals and pubic area. All of the images recovered depict actual, as opposed to computer generated, images of minors engaged in such conduct. Some of these images depict prepubescent minors engaged in such conduct.

NADORASKI knowingly and willfully received and possessed the aforesaid images located on said computer. In addition, he received, downloaded and possessed the images knowing that they depicted minors engaged in sexually explicit conduct. NADORASKI obtained such images from, among other places, individuals and websites located outside the State of New York. Moreover, such images, and the actual computer used to obtain and download these depictions, were transported in interstate and foreign commerce and were produced using materials that had been mailed, or shipped or transported in interstate and foreign commerce.

The case was investigated by the Department of Homeland Security, U.S. Immigration and Customs Enforcement, Office of Investigations in Albany, New York and the Colonie Police Department.
